## Will the promise resolve? 🌍

#watercooler #devlive #motivation #sustainability

Thank goodness it's Friday! and not just any other Friday...

Just a short post to state that it is possible to work AND campaign on the same day, but it is impossible to save humanity without changing anything.

I support sustainable development, environmentalism, and Developers For Future, which is why I made this nerdy T-shirt that I will wear at the Fridays for Future protests today.

This is the pseudo code written on my shirt:

```
climateAction = async election =>
  await Promise.resolve(election)
  || strike
```

Will the promise resolve?

```
#devsForFuture
#developers4Future
#globalClimateStrike
```

## Discussion (1)

InHuOfficial • Sep 24 '21

Nice to see you back on here, been ages! Hope you are well!

Love the T!
